TRIP HIGHLIGHTS

EARTH - VAIDYA GRAMA

DAY 1 - DAY 7

The village of healers: We begin our journey by the invocation of earth element: rest in your true nature by being in the village of healers, Coimbatore going through simple ayurvedic treatments, daily lectures on Ayurveda and Yoga practices for one week.

LECTURES and YOGA classes by:

Shashi Khosla and Indu Arora

“The biggest transformation in life comes when we meet the person who takes us from where we are to where we could be. One such change came to my life when I met my Master, “Shashi Khosla”. This is one opportunity I would like to share with all of you, to meet her, know her and learn from her.” (Indu Arora)

WATER - JAMBUKESWARAR DAY 8

The next landmark is a visit to the temple, which is dedicated to the water element allowing for purification of our emotions and mind, setting the pace for the onward journey.

FIRE - MEENAKSHI TEMPLE DAY 9

To acknowledge the fire we visit Madurai and Meenakshi Temple which is one of the Shakti sthala in South India. This temple invokes our innate appetite as seekers of knowledge and insight. This fire allows us to be the beings of light that we are.

AIR - RAMESHWARAM DAY 10

Rameshwaram is one of the 12 Jyotirlingam (awakened form of Shiva) in India. This place is truly exceptional. In order to pay a visit to the temple one has to bathe in water from 22 wells and these 22 wells hold the water from 22 different rivers from India. Shiva is considered to be omnipresent like the air. This air is the life force that keeps us alive and yet we hardly pay homage to this breath which is present in us as Shiva.

ETHER - KANYAKUMARI DAY 11 - DAY 14

Kanyakumari is the meeting point of three bodies of water (Arabian sea, India Ocean and Bay of Bengal) and it is the southern most tip of India. This is the place from where the Shakti as virgin goddess (Kanya Kumari) rises to meet Shiva (in Himalayas).

The entire map of India (Bharata) represents the body of a human being and every geographical region has a symbolic connection to the human body, mind and spirit. This air is the life force that keeps us alive and yet we hardly pay homage to this breath which is present in us as Shiva.
